No	Year	Rice Export/tons
1	2011	622
2	2012	8,140
3	2013	28,302
4	2014	48,980
5	2015	116,639
6	2016	127,460
7	2017	199,867

No	Year	Tapioca Chip Export/tons
1	2012	3,000.00
2	2013	55,202.00
3	2014	94,208.00
4	2015	149,412.00
5	2016	87,433.00
6	2017	9,438.00

Cooperation between Cambodia and China

- The Tapioca chip decrease but starch increase for export to china in 2017 have exported 48,895.00tons
- MAFF and AQSIQ on Phytosanitary Requirements for Cambodia Maize Export to China, not yet export (Nay PyiTaw Myanmar September, 2014)
- Phytosanitary expert of the AQSIQ and DPPSPS/GDA/MAFF working together for develop Protocol on Phytosanitary Requirement for export Banana and Mango to China

Issues & Challenges

- Lack of knowledge on import requirements including Chinese regulations and standards;
- Limited understanding on SPS measures among exporters/SMEs;
- High export costs, limited processing and storage facilities;
- Limited inspection and laboratory testing capacities, with an impact on product quality and safety;

Issues & Challenges

- Limited information exchange and dialogue between public and private sectors;
- Designated import companies & quota by Chinese Government;
- Underdeveloped agricultural value chains;

Recommendations

- Developing product specific guidelines on how to export agricultural goods to China;
- Compiling and translating Chinese national standards and SPS law and regulations into national language;
- Organizing SPS-related trainings, workshops, seminars for exporters/SMEs;
- Organizing study visits for exporters/SMEs to China;
- Conducting frequent, regular multi-stakeholder dialogues involving public sector, producers, processors, exporters, and importers.

Recommendations

- Finalize the Protocol on Phytosanitary Requirements for export Banana from Cambodia to China (MAFF & AQSIQ)
- Suggesting AQSIQ to establish Protocol on Phytosanitary Requirements for export Mango from Cambodia to China
- Suggesting AQSIQ to establish Protocol on Phytosanitary Requirements for export Dragon fruit and Longan from Cambodia to China
- Suggesting AQSIQ to finalize the evaluation of Second Stage of 40 Cambodian (Rice Miller) Rice Storage, Processing and Export to China.

Thank You!
